

**Submission to the Publics Committee on Justice and Correctional Services on the
Correctional Services Investment Bill**

14 July 2023

The African Training College (ATC) Group from (ATCG) is a not-for-profit training provider of justice professionals and governance services across the continent. ATCG has a strong focus on investments in digital justice through flexible, contextual, independent and flexible course delivery in the digital age. ATCG has submitted the following to the Publics Committee on Justice and Correctional Services to raise submissions on the Correctional Services Investment Bill (CSIB).

Our submissions focus on three aspects of the Bill after its public consultation:

1. Digital investment of CSIB
2. The role of ATCG as provider of digital justice services from the investment (DJI)
3. The opportunity to the CSIB and CSIB Bill

We have also considered the development of a separate submission to the Executive Justice Forum, of which ATCG is a member. We welcome the submission and urge the Committee to consider the recommendations made therein regarding the use of digital justice, engage the executive justice forum and the CSIB Bill, investigate in detail, the use of technology services, agreement of the CSIB and CSIB Bill, investment of CSIB, and the resulting reporting obligations of the Department to the Executive Justice Forum.

ATCG is pleased to submit a public submission to the Committee & provide all the necessary details. For more information about the submission, please contact:
